Kayron Gradilone

Front-End / Full Stack Developer

+55 48 99115-8345 kayrongradilone@hotmail.com Florianópolis linkedin.com/in/kayrongradilone

Front-End Developer with 4+ years of experience building web applications with React, Next.js and TypeScript, including multi-tenant e-commerce platforms, payment flows and data-heavy dashboards for the energy and agritech sectors. Comfortable across the stack with Node.js and PostgreSQL, and focused on reusable components, performance and clean, maintainable code. Fluent in English, experienced working remotely with cross-functional teams.

Work experience

Front-End Developer (Part-time)
Si3 Sistemas
January 2026
Current

- Own both front-ends of the platform: the store admin panel and a white-label e-commerce storefront, shipping screens in the same release cycle as backend API changes.
- Built CRM, logistics (batch fulfillment, tracking, packing slips) and payment modules (gateway setup, refunds, chargebacks, CSV export).
- Implemented checkout with server-side shipping quotes and online payments (PIX, boleto, tokenized credit card via Mercado Pago SDK) with status polling, retries and idempotency.
- Stack: Next.js 15, React, TypeScript, Tailwind CSS, shadcn/ui, react-hook-form, Zod.

Mid-Level Front-End Developer (Full-time)
Soul Technology
November 2025
Current

- Develop modern, high-performance interfaces, turning complex requirements into intuitive visual workflows with React Flow.
- Build reusable component libraries and responsive, accessible layouts; optimize performance and SEO in Next.js.
- Stack: Next.js, React, TypeScript, React Flow, Tailwind CSS.

Full Stack Developer (Full-time)
Plathanus Software & Design
March 2025
November 2025

- Delivered end-to-end web applications, from responsive UIs to APIs, business logic and PostgreSQL integration.
- Handled cloud deployment and monitoring, working with product, design and QA teams.
- Stack: Next.js, React, TypeScript, Node.js, Tailwind CSS, PostgreSQL.

Front-End Developer Intern
IGera Agricultura 4.0
January 2023
January 2024

- Built a data analytics platform for partner farms.
- Stack: Next.js, JavaScript, Material UI, Axios, Google Charts.
